

Windows 7 Wireless Instructions

1. From your Windows menu bar, look in your system tray on the bottom right of your screen. Right-click on your wireless icon. For students, choose “**uscstudent**” as the network to connect. Check the box that says “*Connect automatically*”. Select “*Connect*”.

2. Use your University network username and password. (This can be found on [VIP](#) under Technology). Click *OK*.

3. With a successful login, you will see a message that indicates that the connection attempt could not be completed. However, choose “*Connect*”.

You will be connected to the University wireless network.

4. After setting up your computer to recognize USC wireless, please open a webpage. You will be asked to login with your USC network username and password. You will be asked to review the USC Network Usage Policy. After review, click on the link that says, “*Yes, I will install the policy key and accept the terms and conditions for Internet use*”. If you choose not to accept the policy, you will not be granted Internet access.
5. The policy key will begin downloading. Select Install to complete the policy key installation. When the installation is complete, you will receive a prompt indicating a successful installation. You are now connected to the USC wireless network!
